EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with J. Moldovanyi on 6/1/06.

The application has been amended as follows:

In claim 7, after line 4, the following new line has been inserted:

--a source of suction carried by the casing--.

In claim 7, line 7, which recited "a source of suction carried by the casing" has been deleted.

2. The following is an examiner's statement of reasons for allowance: With respect to claim 7, the prior art does not disclose nor render obvious the claimed combination of subject matter, particularly an outlet port defined on the casing for outlet air exiting the source of suction; an exhaust grill defined on the casing in spaced manner from the outlet port and a control member which selectively directs the outlet air to the outlet port or to the exhaust grill. With respect to claim 18, the prior art does not disclose nor render obvious the claimed combination of subject matter, particularly a casing selectively mounted to the receptacle, the casing forming a drawer of the receptacle such that an exterior wall of the casing defines a wall of the receptacle. The

prior art to Slone, alone or combined with any other prior art device does not render obvious the above claim limitation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
